### Education

#### University of Central Oklahoma

2001 - 2006

Bachelor of Fine Arts, Graphic Art

#### University of Oklahoma

2000 - 2001

Bachelor's of Fine Arts, Painting

### About me

I live in beautiful Colorado with my wife, kids, and our husky named Spock. I love the mountains, watching bad sci-fi movies, and painting.

I have been crafting user experiences for complex and technical workflows for 15+ years. My favorite part is going "from zero to one" and building a design team or design system from scratch, and working with the open-source community to create the next generation of infrastructure automation tools.

# Hi, I'm Joshua

I'm a design leader living in Denver, making the cloud a better place to live

I've worked with really talented people

#### HashiCorp

Staff Product Designer, Jul 2017 - Present

I lead design for **infrastructure automation** software spanning from secrets management to privileged access. I helped build a 40+ person product design team, defined process, and created our **design system**.

#### thoughtbot

Sr Product Designer, Mar 2014 - Aug 2016

One of the biggest names in **Ruby** development and known for a dedication to the open-source and startup community. I led design and front-end for client projects, mentored junior designers, and help develop our influential **Product Design Sprint**.

#### Brightbit

Co-Founder + Design Lead, Feb 2011 - Mar 2014

Led design and front-end development for a team of seven. We built **Ruby on Rails**, **Javascript** and mobile apps for clients, focusing on community and craft. Brightbit became a leading consultant in the region.

#### The Oklahoman

Interactive Designer/ Developer, Apr 2009 - Feb 2011

My first product experience, focusing on **business growth** and delivery. Created the largest site for events and business information in the state.

#### Element Fusion

Web Designer, Oct 2008, Apr 2009

Designed and developed websites for SMBs as a solo consultant, including **branding** and **copywriting**
